

Nikita Chabaniuk

Junior Frontend Developer

Summary

I'm a front-end Engineer with experience in HTML & CSS, SASS, JS, React, Next.js, and TypeScript. I'm very passionate about web development and think it's a great field. My technical skills also include active studying in Computer Engineering, where I am currently solving algorithmic problems and delving into computer architecture. I have Intermediate English skills and am trying to develop this skill.

In addition, I am also a great communicator and open to criticism and discussion. I find it quite easy to communicate with someone about technical and non-technical things. Currently, I am a team lead in a non-profit project, where I am successfully engaged in product development and team support.

Experience

Front-end Developer

DigitalMindsUA

May 2023 - Present(Part-Time)

Responsibilities:
